

92%

of adults experience
screen time eye issues*

Top concerns*:

Tired eyes

Headaches

Eye strain

66% believe that their device use is “too much,” but nearly 40% of those people believe it is necessary for daily needs.

EyePromise® Screen Shield™ Pro

The effects of screen time and harmful blue light are a daily concern for you and your patients. EyePromise Screen Shield Pro is a daily eye health nutraceutical formulated with **all-natural zeaxanthin** and other nutrients to protect the eyes from increasing screen exposure and work with a daily multi-vitamin.

Findings from an independent study conducted by Kemin Industries in 2018.

Why Screen Shield Pro?

90%

of American adults report using digital devices for 2+ hours per day.

70%

of adults use 2 or more digital devices at a time.

76%

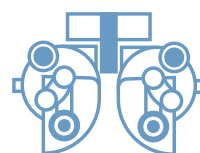

of adults look at their devices in the hour before going to sleep.

<30

Adults under 30 experience the highest rates of screen time symptoms.

90%

of patients don't talk with their eye care provider about digital device use.

2 out of 5

patients would "definitely" or "probably" buy an eye vitamin that will protect eyes from excess digital device light exposure.

For ages 18 and up

Supported by Science

With over 30 years of research dedicated to eye health and nutrition, several studies support the efficacy of the formula selected for Screen Shield Pro. Matching the eye's natural 2:1 ratio of zeaxanthin to lutein, EyePromise Screen Shield Pro offers natural protection from the symptoms associated with extended screen time.

With other nutrients proven to positively impact eye health, this product is a great addition to patients' daily routines.
