EyePromise® Screen Shield™ Teen

Screen Time Protection for Young Eyes

The effects of screen time and harmful blue light are a daily concern for you and your patients. EyePromise Screen Shield Teen is a chewable eye health nutraceutical formulated with all-natural zeaxanthin and other nutrients to protect children's eyes from increasing screen exposure and work with a daily multi-vitamin.

*Findings from an independent study conducted in 2018.

Screen Shield Teen offers children's eyes a natural defense against the harmful effects of screen time.

Actual Size

Vitamin E (2 mg)
An essential vitamin that slows cellular aging and strengthens blood vessels.

Lutein (2.5 mg)
An important photo-protectant found in the peripheral part of the macula that helps filter harmful blue light.

Vitamin (C Ascorbic Acid) (60 mg)
An essential vitamin in iron absorption and the production of the glue that holds the cells in the eyes and brain together.

Zinc (1.5 mg)
An essential mineral important for metabolism and eye health.

Zeaxanthin (5 mg)
A superior photo-protectant and antioxidant that helps prevent oxidative stress primarily found in the central part of the macula.

Supported by Science

With over 30 years of research dedicated to eye health and nutrition, Several studies support the efficacy of the formula selected for Screen Shield Teen. Matching the eye's natural 2:1 ratio of zeaxanthin to lutein, EyePromise Screen Shield Teen adds an extra layer of protection for young eyes whose macular pigment is not fully developed.

With other nutrients proven to positively impact eye health, this product is a great addition to a child's daily routine.
