

Introducing the EyePromise visual EDGE Chewable Convenience Program.

How does the trial work?

The 30 day EyePromise visual EDGE Chewable trial works similarly to the trial programs of Netflix and Amazon Prime. At the end of the 30 day trial period, if you haven't canceled, you'll be automatically registered to receive one, 3 month supply bottle of EyePromise visual EDGE Chewables every 90 days and charged accordingly (\$119.95 plus tax). Please refer to the [terms of agreement](#) for details.

Why do we require a credit card?

While the first month supply bottle is free, we do ask you to cover a \$4.99 processing and handling fee. Additionally, CC information is the easiest way for us to ensure that people are not abusing our offer. Once the 30-day trial ends, we will send a 3-month supply bottle as the start of your subscription. Your CC will only be charged once your order is shipped. If the bottle isn't wanted, we will refund your money. Please see our [return policy](#) for details.
